textareaName: Hi, I am writing to thank the Molyslip team for a remarkable product.

My wife commutes from Newmarket to Oshawa every day, and she drives a 2007 Honda Fit with 108,000 Km. A few weeks ago I decided to add Molyslip oil treatment to her engine oil. A week later she was driving towards Whitby when her oil light came on. She drove another 15 minutes to a Service station, at which time she discovered her oil drain plug had fallen out (presumably the fault of the last oil change service person). After buying a new drain plug and refilling the engine oil she was able to continue with no sign of engine damage.

I believe it was Molyslip that protected her engine from the catastrophic damage almost inevitable when it is drive any distance with no oil.

Congratulations on an excellent product, and I recommend you make the superb capability of your product know to more vehicle owners.
