

Good day Stephen,

I received the [Automatic Transmission Supplement \(ATS\)](#) and the [Manual Transmission Supplement \(MTS\)](#) today. I added the ATS and went for a ride; the positive results were almost instant!

Smooth shifting and I can find neutral with no problems, seems to slide right in!

This is definitely not some placebo effect that I'm experiencing; I know how my 88 V-Max use to shift into gears and finding neutral would sometimes be quite an experience.

If the ATS is any indication of your quality products, I can't wait to add the MTS to the final drive.

Thanks,

Ron Sumeraj
Tokyo, Japan
