June 12, 2002

Dear Paul,

Recently you were written expressing appreciation for the quality products manufactured by Molyslip Canada. Enclosed, a picture of our 1999 Yukon and 2002 Triton Bass Boat. Molyslip products are used in the bearings and joints of both. Your products are put to the test each trip. If they are good enough for us, believe us, then they are good enough for anyone! Great products go hand in hand Paul!

See you on the water!

Sincerely,

Garry Slyfield
