

MOLYSLIP CHAIN LUBE

High Performance Chain Lubricator

Molyslip Chain Lube
Part #6952 180g

CHAIN LUBE is part of the Molyslip family of specialty lubricants

- AS/40 and AS/65 assembly pastes
- engine, hydraulic and gear oil supplements
- Copaslip anti-sieze compound
- high temp grease
- multi-purpose grease
- ultra-5 extreme duty grease
- diesel fuel conditioner
- combat penetrating oil
- open gear spray
- air drying moly spray

Molyslip Chain Lube is a new edition to the Molyslip Line of Performance Series products. It is formulated to provide long-lasting, superior lubrication to your O-ring or conventional chain.

Chain Lube Features:

- High quality grease with corrosion inhibitors
- Unique formula works into chain linkages to lubricate, cushion and protect
- Added protection of Moly (molybdenum disulfide) prevents metal-to-metal contact
- Non-drip formula ensures product clings to chain keeping your rims cleaner
- Long-lasting formula means less time maintaining, more time riding

Designed for performance:

Molyslip Chain Lube has been tested in competitive environments of motorcycle, go-cart and mini-sprint racing. Participants noted smoother shifts, less chain stretch, longer chain life and fewer contaminants on the chain. But Molyslip Chain Lube has more uses than just go-cart or motorcycle chains! It can be used on any chain drive: industrial, recreational and home & garden.

The plating action of Moly prevents metal-to-metal contact and reduces friction, wear and heat. Moly has been used for many years as an E.P. (extreme pressure) grease additive because of its ability to withstand loads in excess of 140,000 psi.

Chain Lube will give users:

- Longer chain life
- Longer periods between applications
- Smoother shifting

Put the benefits of this product to work for you!
