

MOLYSLIP COMBAT

Penetrating/Lubricating Oil

Molyslip Combat
Part #4422 170g

Molyslip Combat is a water-displacing, anti-corrosion, penetrating and lubricating oil in an aerosol spray. This stable solution of sophisticated chemicals and petroleum derivatives together with lanolin provide excellent protection and lubrication.

Key Features:

- Penetrates and releases seized components
- Effective lubricating oil
- Dries out electrical systems by displacing water
- Anti-corrosive properties protect components
- Harmless to rubber, plastic, fabric and other common surfaces

Combating dampness:

One of the most unique properties to Molyslip Combat is its ability to fight dampness. When Combat is applied to damp or water-coated surfaces, the cationic and non-ionic surfactants in the chemical literally creep under the water to form a protective film.

These properties, plus the solvent, lanolin and oil content, ensure that the fluid penetrates, frees, cleans and lubricates through fine tolerances, and displaces water from otherwise inaccessible areas. It is effective in both fresh and salt water.

Unmatched versatility:

Combat offers effective penetrating lubrication that can be used in a wide variety of applications, including:

- freeing up seized components
- drying out and rapidly damp-proofing all electrical systems
- penetrating and cleaning corroded and rusted parts
- lubricating locks, hinges, office machinery, sliding doors navigation instruments, and material handling equipment
- protecting any metal surface from rust and corrosion

The perfect compliment for any shop, pick up a can of Molyslip Combat today and let it work for you!

COMBAT is part of the Molyslip family of specialty lubricants

- AS/40 and AS/65 assembly pastes
- engine, hydraulic and gear oil supplements
- Copaslip anti-sieze compound
- high temp grease
- multi-purpose grease
- ultra-5 extreme duty grease
- diesel fuel conditioner
- chain lube
- open gear spray
- air drying moly spray
