Molyslip (Canada) Inc.  
20-1145 Bellamy Rd. N.  
Scarborough ON M1H 1H5

To whom it may concern:

About 11 years ago, being a high mileage driver I was quickly out of warranty on my new Grand Prix. I had read about Molyslip performance in the news paper and took the article to my local GM service advisor. His response was “...if we recommended an engine oil additive, which we don't, that's the one we'd choose"! So I tried it.

I needed something to help with gas mileage and engine wear. At the time I was doing one particular run for 4 hours one way. I was using almost 2 tanks of gas for a round trip. Immediately after applying Molyslip, the same run used only a little more than one tank! Not only was I saving gas, but the wear on the engine reduced friction for cold weather start ups and cranking power!

Soon after, I applied the automatic transmission additive and got even better gas mileage, plus velvet smooth shifting on the first application! I now use it without fail in all my cars with continued success and strong engine and transmission performance.

I would never run a car without it now, including my E320 Mercedes! It's a hidden gem.
